Dear Mr. Anikeyev:

In accordance with the Protocol of the 2nd Meeting of Stationary Source Air Pollution Control Technology Working Group, we are sending you the following:

In satisfaction of Project A-4, enclosed is the promised, more detailed description of the plants proposed for testing of collection equipment efficiency. In satisfaction of Project B-8 is the report entitled, "Status of Development of Methods for Controlling NO<sub>x</sub> Emissions."

We would appreciate an acknowledgement of receipt of this material so that we may know if it has arrived in good condition.

Sincerely yours,

R. E. Harrington  
Director

Air Pollution Control Division
